SUMMARY

I'm a dedicated and innovative final-year Information Technology (Hons) undergraduate at the University of Ruhuna. Experienced in designing and developing full-stack web applications, mobile applications, Database management, UI/UX design, Networking, and Quality Assurance. Passionate about building scalable software solutions, applying emerging technologies to solve real-world problems. Seeking a challenging IT internship opportunity with a progressive organization.

SKILLS

- **Programming Language** - C, Java, VB.NET, OOP, Data Structures and Algorithms
- **Frontend Development** - HTML5, CSS3, Bootstrap, JavaScript, jQuery, React.js
- **Backend Development** - PHP, Node.js, Express.js, Laravel
- **Databases** - MySQL, Firebase
- **Content Management System** - WordPress, WooCommerce
- **Data Analytics & Visualization** - Orange, KNIME, Power BI, Excel
- **Software QA & tools** - Manual Testing, Automation Testing, Test Case Design, Bug Reporting, SDLC
- **Multimedia Design** - Adobe Photoshop, Canva, Figma, CapCut
- **Tools & Platforms** - Git, GitHub, Postman, VS Code, Vercel, Render
- **Soft Skills** - Analytical Thinking, Team Collaboration, Adaptability, Time Management, Problem Solving

PROJECTS

01. Entrepreneur Online Business Platform for University of Ruhuna Students [GitHub Link](#)

- Developed a web-based marketplace platform enabling University of Ruhuna students to register as entrepreneurs, create digital storefronts, and connect with customers.
- Built user registration and authentication system using PHP and MySQL, supporting secure account creation and login.
- Implemented input validation and session management to enforce secure data handling and prevent unauthorized access.
- Designed a responsive front-end interface using HTML, CSS, Bootstrap, and JavaScript for cross-device usability.

Technologies: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL

02. WordPress Summer Style E-Commerce Clothing Shopping System

- Designed and developed a fully functional e-commerce website using WordPress and WooCommerce for an online clothing store.
- Implemented core shopping features including product listings, shopping cart, checkout, and order management.
- Customized WordPress themes and plugins to align with client and user requirements.
- Configured user roles and applied basic security measures to protect site content and transactions.

Technologies: WordPress, WooCommerce

03. Hotel Room Booking Mobile Application(Azure Horizon Resort) [GitHub Link](#)

- Developed a native Android mobile application using Android Studio and Java for hotel room booking and management.
- Designed and implemented key features including user login, registration, room booking, and cancellation.
- Integrated Firebase Authentication and Firebase Realtime Database for secure user management and live data synchronization.
- Applied Material Design principles to build a responsive, intuitive, and user-friendly mobile interface.

Technologies: Android Studio, Java, Firebase Authentication

04. Technology Device E-Commerce Shopping System (Gizmo) [GitHub Link](#)

- Designed and developed a full-stack e-commerce website for purchasing technology devices using Express.js and MySQL.
- Implemented core features including user registration, secure login, product listing, product details, shopping cart, checkout, and order processing.
- Built responsive user interfaces and integrated a MySQL database to manage users, products, and orders.
- Implemented authentication, session management, and role-based access control for regular users and administrators.

Technologies: HTML5, CSS3, JavaScript, Bootstrap, Node.js, Express.js, MySQL

05. Sri Lanka Tourism Management System [GitHub Link](#)

- Developed a tourism management website featuring tour package listings and management functionality.
- Implemented an admin login system with full package management capabilities (create, update, delete tour packages).
- Integrated a MySQL database to store and manage tourism and package information.
- Built a responsive front-end interface using HTML5, CSS3, Bootstrap, and JavaScript.

Technologies: HTML5, CSS3, Bootstrap, JavaScript, PHP

EDUCATION

Bachelor of Information Technology (Hons)

University of Ruhuna | 2022 - Present

- Current GPA: 3.09/4.00

G.C.E. Advanced Level Examination (2021)

Results - Sinhala (A), History (A), Geography (B)

- Z-Score: 1.4729

G.C.E. Ordinary Level Examination (2018)

Results - 4A, 1B, 4C

INTERESTS

- Full-Stack Development
- Web Development
- Android App Development
- UI/UX Design
- Software QA & Testing

ADDITIONAL INFORMATION

- **Languages:** Sinhala, English
- **Certifications:** AWS Skill Builder (Software Development with Amazon Q Developer), Cybersecurity, Agile project management, Project Management
- **Badges:** AWS Skill Builder - Amazon Q Developer training.
- **Extracurricular activities** - Sustainable Development Practice(UNDP)
